Run

```
1
2 arr = [2, 4, 1, 3, 5]
3 count = 0
4
5 for i in range(len(arr)):
6     for j in range(i + 1, len(arr)):
7         if arr[i] > arr[j]:
8             count += 1
9
10 print("Number of Inversions:", count)
11
12 k.sreelatha(192425248)
```

Output

```
Number of Inversions: 3
```
