JS

TS

```
1
2 def factorial_recursive(n):
3     if n == 0 or n == 1:
4         return 1
5     return n * factorial_recursive(n - 1)
6
7 n = int(input("Enter a number: "))
8
9 # Iterative Method
10 fact = 1
11 for i in range(1, n + 1):
12     fact *= i
13
14 print("Factorial (Iterative):", fact)
15 print("Factorial (Recursive):", factorial_recursive(n))
16
17 k.sreelatha(192425248)
```

Output

```
Enter a number: 5
```

```
Factorial (Iterative): 120
```

```
Factorial (Recursive): 120
```

```
