

main.py

Share

Run

```
1
2 A = [[1, 2], [3, 4]]
3 B = [[5, 6], [7, 8]]
4
5 result = [[0, 0], [0, 0]]
6
7 for i in range(2):
8     for j in range(2):
9         for k in range(2):
10             result[i][j] += A[i][k] * B[k][j]
11
12 print("Resultant Matrix:")
13 for row in result:
14     print(row)
15
16 k.sreelatha(192425248)
```

Output

Resultant Matrix:

[19, 22]

[43, 50]
